It's our experience that has enabled us to develop and maintain "State of Art" Infrastructure. Our company has been called, "**The company with a good attitude**".

We are offering our services to enabled our principal to reach the destination where they can perform effectively and face any type of competitive business market to attain their targets. With a strong vision of corporate governance, business ethics and customer satisfaction.

The
company
with
a good
attitude

Parshwanath Group of Industries now stand firm as the most prominent dyestuff & food color specialist world wide, with an impeccable reputation for its **Quality, Service & Technology**.

Our group has had a steady growth within a short span that has been possible due to sheer hard work, strict quality measures and sound business practices adopted by the top management - there has been no short cut to our success story.

CORPORATE SOCIAL RESPONSIBILITY

At, Parshwanath Group of Industries, we continuously try to emphasize on the local issues where communities are benefited and sustained. Engaging local people in every project is a key aspect for its successful implementation. We enable local people to actively participate in the project activities, wherein their inputs are valued the most. Our key motive is to improve the quality of education, provide infrastructural facilities, provide healthier lives to the marginalized people and facilitate the local community with clean and safe drinking water systems.

As an environmentally sensitive organization, our foremost concern is to give something back to the nature that we constantly thrive upon. Natural resources are endlessly under pressure due to human interventions and damages they cause. Preserving these resources is very important, and therefore we are predominantly working to protect these resources in various possible ways.

We seek to implement such facilities which will focus on creating an impact on the society as well as on the people, which will reduce the gap between all stakeholders.

MARKETS

The quality and performance of our products are well approved by customers across the globe and our products are regularly exported to more than 35 different countries. Over the past few years, we have been able to serve major markets across the globe. We cater to the requirements of domestic as well as overseas customers and provide consistent quality at most competitive prices and at prompt delivery schedules. We have a separate International Business Division headed by qualified and experienced professionals, always ready to serve the overseas customers.

“Salesman sells product but we know customers want relationship.”

QUALITY CONTROL

It has been our practice since inception to ensure that each batch of production goes through strict quality checking and we aim at providing to our valued customers quality products and consistency thereof. We make sure that the right product reaches the right customer - no compromise in quality. Experienced Chemists with hands on experienced in Dyestuff industry take care of the quality parameters. We retain sample undergoes testing against the approved samples, under strict supervision of our qualified chemists. This is one reason why all our overseas buyers consider us as long-term partners and look up to as reliable source for quality products.

We are having following facility in our laboratory for testing.

- » Spectrophotometer
- » HPLC
- » TLC
- » Paper Chromatography
- » Coupling value check
- » Facility to check impurities & insoluble
- » Nitrate value & all other small parameter

That operation and quality product are key elements of successful company.

No wonder that, "Our product continue to surpass in quality, innovation and value."
